Tool Compatibility Table - 19 kN Press Tool and Jaws Europe

Conex Bänninger recommends the use of ROTHENBERGER 19 kN press tools in combination with >B< MaxiPro jaws. Only ROTHENBERGER 19 kN press jaws are approved for use with >B< MaxiPro fittings as shown in tables 1 and 2.

Other 19 kN press tools with compatible press jaw interface may be used in combination with ROTHENBERGER >B< MaxiPro jaws. See tables 3 and 4 for recommended and other compatible press tools.

All tools and jaws used must be maintained and serviced in line with manufacturers recommendations.
