

Flame-free >B< Press is the safe connection at Broadway on Ann apartments

Date:	2016
Product:	>B< Press
Contractor:	Isle Plumbing
Description:	Residential apartment building
Project:	Broadway on Ann
Location:	Brisbane, Australia

Background

Broadway on Ann was designed by cutting edge, design and consulting firm Woods Bagot. Comprising of 247 luxurious, one and two bedroomed apartments across 15 floors, Conex Bänninger >B< Press was used to install gas lines.

Products

Work was carried out by Isle Plumbing to install hot, cold and gas lines. Conex Bänninger >B< Press Gas has a high quality coloured O-ring that forms a secure leak-free joint when pressed. Flame-free installation gives additional safety in historic buildings as no hot works are required, and the 3-point press technology ensures a leak-free profile, secure and permanent joint.

Available in sizes 15mm – 54mm and in both copper and red brass fittings, >B< Press Copper and Red Brass for hot, cold and gas fitting is quick and simple to install, saving time and money.
